

Twenty Free Samplewiz 2 presets

20 free presets (with samples) for Bleass and Jordan Rudess new sampler Samplewiz 2.

One of the first thought I had when this sampler was released was “can it import samples?” It does, so I did! These presets feature sounds from various sample packs I released over the years.

Most presets are experimental sound effects and use Samplewiz 2 sound shaping tools but the following three are straight presets, meaning that the sample was simply imported in the default preset and does not use the filter, granular engines, modulation or FX: Big Snowfall, Julie R aah2, Jawharp 25.

Here’s the preset list. I’ve also listed the name of the source sample pack with its link after the name of each preset.

Installation

Samplewiz 2 stores the user presets in the iCloud Drive. So to import presets, they only have to be copied in the 'Presets' folder of the "Bleass Samplewiz 2" folder on the iCloud Drive. Then Samplewiz 2 will open them automatically though there may be a short delay. Also user presets will sync automatically, when connected to internet, if you have Samplewiz 2 installed on more than one device.

Licence short version:

These 20 presets and their included samples from Les Productions Zvon can be freely used in any composition, soundtrack or musical work. But they cannot be redistributed even in modified form without my permission. Email me if you have any questions!
